Ios 13 shortcuts app guide

If there are no devices, this shortcut shows the standard options to share to give you other options. Count the hours of dream up to a great event an especially useful iPhone shortcut for impatient people. If you are looking for an excuse to leave, stop chatting, hanging the phone, look popular, or whatever, touching this shortcut will cause text alert audio as many times as you say. A classical example of an official direct access that clicks to activate is the shortcut «Home ETA.» Yes, by clicking on an iCloud link, the phone keeps opening the App Store instead of the app Shortcuts, try to open the link in the Safari browser of your iPhone. That should do the trick. Turn on Apple TV without remote control Wake The Apple TV saves your life if you do not find the small remote control or if you do not get upset to move from the sofa. Personalize it to find your nearest library, grocery store, public baths, or anything that is useful for you that you are often looking for.9. Create a music application for children PLAY AN ALBUM allows you to create a direct access to a particular disk. 3. While this may not be an incredible tool for adults, if you have music in your phone you like to listen, you can add a single-touch button on the home screen so you do not have to play in Your music app to find what they are looking for. Whether you want to see how many days are missing for a birthday, as for a vacation, or you just can not wait for your next night with your best friends, this app will show you how much time you have left and gives you the option to send this update to others. To access this, you just have to press in the «Galeria» at the bottom right of your APP screen direct access. 2. Direct your own Sitcom Laugh song is a total novelty, but it is not for everyone. 12. Tell your loving when you will be at Casahome ETA Look at your current location, see how far you are from your pre-loaded home address and calculates how much time will take to return to the base. Once you have explored the options that we highlight, you can search more looking for what you would like to do a shortcut in the Galeria section of the Direct Access Application. Enter the amount of the check and this shortcut will indicate the amount of the suggestion and when it will be the new one. This shortcut will send an initial message to the selected emergency contacts with your location, will send a second message to other key contacts if it is And you will show a message on the phone screen to see the first to answer. No matter where, this shortcut uses the maps application to see where you are, look at your pre-programmed home address to see how much time will take there, and then use your application messages to generate a one with your ETA, and send this information to a pre-selected contact. First steps with shortcuts in iPhoneShortcuts are already pre-installed as standard on all devices running at least iOS 13, but anyone with an earlier version of the mobile operating system will have to download the app from the App Store. At 11. Sure, you can count to 20 or sing "Happy Birthday" twice, but playing a widget to play a snippet of one of the songs in your own music library is much cooler. Leave the perfect tip Calculate the tip is ideal for anyone who struggles with mental arithmetic and is worried about looking petty leaving too little or spending too much. Instead of messing with your settings menu, a touch of this shortcut is turned on Don't Disturb Until You're Basically Leaving Your Current Location.7. Making a Live GIFfoot a GIF helps you create a dirty, dirty photo-based GIF whenever you want. Practice good hand hygieneWashing your hands The music helps you (and/or your children) with good hand-washing hygiene. Make a quick collage of your genes Step 1: Collect a lot of pictures of your cats. Credit: screenshot / apple There's always a risk in doing so, but since you can see (and edit) the shortcut steps of each shortcut you access to your phone, the danger is minimal, as long as you know you're downloading a genuine iCloud link.4.2. of these useful shortcuts to your iOS toolbox From locating essential services near you to saving time creating visual content to enjoy your music perfectly, here's a selection of the best shortcuts we recommend you take a look. Shortcuts that make the cut Although some of these shortcuts do not represent a great time saving, it is quite cool to have small widgets that can the actions of application for you. There are hundreds of other major examples in Apple shortcuts gallery, as well as other shortcuts that other users have created and shared, capacity capacity Account for a special day to be able to find the perfect GIF for any situation. Next, send a pre-selected contact to give them their ETA. What is most impressive is that you can select a photo (or a custom icon designer) to display on the tile. 17 years. If you want a single touch solution to listen to your favorite music, this widget analyzes what melodies you have heard more on your music app and automatically generates a playlist of what presumably your main songs are. Therefore, once you have initially entered the data required in the sequence of shortcuts, all this happens by simply touching the shortcut in your shortcut library. 13 years. You can use shortcuts for a coffee. Credit: Annie Colbert / Mashable Photo Grid is a quick and easy way to convert multiple images from the camera from your iPhone into a collage, and then share them quickly and easily. The ten. At 8:00. 6. Think of shortcuts as a version in the If This Then That Tel phone, which causes the applications of your iPhone to work together in a sequence to generate a useful action. CRAISTE: Screenshot / Giphy Search Giphy and Share offers you a quick way to find the appropriate GIF for any occasion and send it through the usual channels, or your social networking platforms. Never forget that your shopping list Remind Me At Work is designed to do just that, send you a reminder when you arrive at your pre-selected workplace. Take i.e. To the next Level Emergency Case is the interpretation of the next generation of adding a contact. A «Ice.» Some shortcuts incorporate the SIRI voice control to the mixture, like the fun shortcut «Say Cheese» that allows you to take a photo hands free saying «Siri, Say Cheese» to your phone. 14 years. You can choose how many You want to capture and how much time you want each photo to be displayed, then use the front or rear camera to create your slide presentation and share it immediately. 5. Choose the winning numbers of the random number generator lottery will take the cerebral tension to reach random numbers. If the EL that the Apple TV is connected to support HDMI-CEC connectivity (and the newer ones do) then this shortcut will turn on your TV, too. It is available for both iPhone and iPad. Simply tap the shortcut, enter the word or phrase you want to represent, select from the options, and share. Get directions for your nearest needWalk to the cafeteria instantly load the directions to your nearest Java center. Credit: Screenshot / Countdown of Special Days Countdown of Special Days lets you see how long it's until a "Special Day" in your life. Create a one-touch app to call your baseSpeed Dial lets you create a mosaic of apps for your iPhone's home screen that, when you tap on it, calls the person from your contacts you've selected. Create a message with the artist's name and the song title preloaded, so you can share it with a friend or send it to yourself. Note: This isn't fully functional for all iOS 12.18 users. If you've always wanted your own track giggle to play while delivering your fun-sided split-side punchlines, this app is for you. Some of them are just for fun, others can be really useful in everyday life, and some of them might even save your life. For iOS 13 users, if you "cheese" Siri will launch the Shortcut and take a hands-free photo. Press the button for instant applause. It is a widget maker that saves time and is very fun to experiment with. 16.4. Create a playlist of your favorite songsMake Top 25 Playlist does just that.
